What is ARMA?
ARMA is an international association for records, information and knowledge management professionals.

The ARMA New Brunswick Chapter is one of roughly 150 chapters of ARMA International, which has members in over 30 countries worldwide.

Events and Resources
We offer training opportunities throughout the year, including Lunch & Learn sessions on hot topics and a more comprehensive full or ½ day seminar built around a specific information management theme.

This year, we will have a Fall Seminar on Cyber Security. Keep an eye on our website or subscribe to our email list for more details.

At the end of each year we hold our Annual General Meeting and a Planning Session. Attend to hear how the Chapter is doing, and to have your say about future events and projects. We love to receive feedback from our members!

Our website has plenty of resources for information professionals, whether you are a seasoned veteran or just starting out in your career. Browse through our list of resources for public and private sector organizations, apply for a scholarship, or get information about certifications and courses relevant to your work. Visit us at www.nbarma.org

Who belongs to ARMA?

Our mission: to provide information professionals the resources, tools, and training they need to effectively manage records and information within an established information governance framework.

Our vision: ARMA International is a leader in information governance because we are the authority on records and information management (RIM). RIM is broadly recognized as the foundation of information governance.

Our core purpose: to promote principles and practices that 1) result in organizations understanding that their success relies on the effective management and governance of information and 2) create career and professional development opportunities in RIM and information governance.

Effective records and information management can help your organization:

- Ensure the accuracy and authenticity of corporate information;
- Improve workplace efficiency and productivity by making information easily retrievable;
- Protect against accidental loss or destruction of information and create a disaster recovery plan;
- Identify vital records necessary for business continuity;
- Preserve corporate memory;
- Protect against data breaches and improper disclosure;
- Maintain compliance with regulatory requirements and protect against litigation; and
- Leverage technology to make your information more accessible and secure.

Questions?

Contact the Chapter at info@nbarma.org or get in touch with any of our Board Members directly if you have questions about membership or Chapter events.

If you represent a company and are interested in sponsoring Chapter events or advertising in our newsletters, please contact us for more details.
